Saturday, April 29th, 2006 - 1:00 to 5:00 p.m.

Bass Pro Shops Community Room
Harrisburg Mall

Adobe Photoshop CS2
Adobe Bridge

jpg vs. raw files
processing camera raw files
batch correction and processing

"Excuse me, would you happen to
know how to
process a raw file?"

- Learn how to shoot and process raw camera files for improved color fidelity.
- Learn why raw files contain 16 times the information in a jpg file.
- Learn why you should sometimes shoot jpg files, and sometimes not.
- Learn why you are letting your camera decide how good your images are.
- Learn how you can make much larger images from your camera.
- Learn how to improve detail in high contrast images.
- Learn how to use Bridge tools to process multiple files.

**Are you still on
the first tab?**

\$40.00 per person - \$25 for HACC students,
members of Harrisburg Camera Club, Hershey Camera Club,
Keystone MacCentral and Hershey Apple Core
Please email for registration information by April 20th
